Family of Ten Burned Out

A fire at the residence of George Kreitner, off Stephan Bridge Rd., completely destroyed the trailer house last Thursday, Jan. 27.

The American Red Cross is leading the action to provide emergency housing and clothing for the family of ten. Clothing and household items for the family — Mr. and Mrs. Kreitner, seven girls from 4-20 years old, and a 14-year-old boy — may be left at the Misty Pines Restaurant in downtown Grayling or the Crawford Co. Housing Commission at the courthouse.

The Crawford Co. Sheriff Dept. responding to a breaking and entering in progress in South Branch Township apprehended three juvenile subjects Sunday afternoon. The call was received at 1:53 from the owner of the residence who had arrived home and spotted the juveniles. Deputies arrested the three at 2:16 p.m.

The juveniles were turned over to juvenile authorities and petitioned to Probate Court. Items taken in the B & E were returned to the owner.

A series of breaking and enterings are still being investigated in an area along M-72 four to seven miles east of Grayling. The B & E's were reported Sunday, Jan. 30, and police ask anyone seeing suspicious persons in the area recently to notify the sheriff dept.

Fourteen rolls of fiberglass insulation were reported stolen from a residence on Oak St., off Grayling Avenue, last week. Again, anyone with information should call the sheriff dept.

Weyerhaeuser Fire Quickly Extinguished

A fire started at approximately 7:30 p.m. Wednesday, January 26, on the second floor of the Press Building in the press heating pump room of Weyerhaeuser's Structurwood® Mill on Four Mile Road. Both the Beaver Creek and Grayling Fire Departments responded quickly to the fire call.

The fire, which started in a bearing in one of the press oil heating pumps, was extinguished by mill personnel. The fire departments were called since this system is pumping thermal oil and initially there was open flames and a large amount of smoke.

The fire was localized and was quickly extinguished, resulting in no structural damage to the building. Maintenance and production team members repaired the pump and cleaned up the area which allowed the mill to be ready for production again prior to the end of the shift.

Tony Moore, General Manager, stated, "We are pleased with the quick response of all the different parties to this emergency situation. Quick action on the part of our team members and back-up by the fire departments minimized damage."

Shell Proposes \$20 Million Plant Here

BY Jon Thompson

Shell Oil Company is proposing building an \$18 to \$22 million oil and gas production facility four and a half miles north of Frederic.

Shell engineers in Houston, Texas, are currently drawing plans for the facility and checking out contractors for the project. Shell representatives meet with Crawford County officials Jan. 19 to discuss zoning laws, permits, and other procedures.

One Shell official said although the project is early in the planning stages, Shell has the money to invest and a central productions facility near Frederic would be a worthy investment for Shell and a benefit to Crawford County.

A \$20 million facility would increase the

current tax base of Frederic Township by 50 percent. Shell officials said they will not ask for tax abatement on the facility. Thus, tax revenues generated from a \$20 million facility in one year would be about \$30,000 for Frederic Township, \$76,000 for Crawford County, and \$263,000 for the Crawford AuSable School District.

The facility would be located in Section 10 in the northwest corner of Frederic Township near the old Twin Peaks ski area. The facility will handle production from four wells in northern Michigan. Pipelines will have to be laid to carry oil and gas to the plant.

Shell, which owns all of Sections 10, has two smaller facilities in Section 10, one producing "sweet gas" and another producing "sour gas".

Shell also has another facility in Section 20 of Frederic Twp.

The proposed facility will be similar to a central productions facility built in Manistee six years ago. A sulphur recovery operation will be included at the facility which will eliminate the sour gas smell problem according to one Shell official.

The central productions facility at Manistee took ten months to one year to build but Shell stressed they are moving forward slowly and don't want to rush into anything.

Besides the large amount of tax dollars the facility would generate, the Frederic area would benefit from jobs created by maintenance of the facility.

QUEEN'S THRONES—The traditional ice sculpture throne for Miss Grayling at the Winter Sports Carnival may be brought back for the 58th annual carnival Feb. 19-20 if more snow falls. (Photographs courtesy of Arnie Mauren, Chief Shoppenagons Hotel)

More White Flakes Needed For Carnival Sculptures

Grayling Winter Carnival officials would like at least six more inches of snow for building ice sculptures at this year's carnival scheduled for Feb. 19-20.

They have plans for building six sculptures at Hanson Hills the site for the 58th annual Winter Carnival.

But unless a snowstorm dumps a half a foot of snow soon, building will be difficult.

On Monday, Jan. 31, there was less than a half a foot of snow on the grounds at Hanson Hills where they want to build the sculptures and there wasn't much snow piled from clearing the parking lot at the park.

Area businesses will also have a hard time building sculptures unless a heavy snowfall hits. Last year, Skip's Sport Shop with a

large fish, 7-Eleven with Santa and his home, and Wendy's with a large salad, won awards for their sculptures.

Even if there is an abundance of snow, no one is likely to come close to the ice sculpture masterpieces from earlier winter carnivals built by John Deckrow.

Miss Grayling Pageant Set for February 12th

The pace quickens...songs get better...dances get smoother...costumes get professional...touching touches...and slowly and inexorably the big night approaches. The contestants are finding that although getting ready for the pageant is a lot of hard work, the rewards of working together and learning to do things both individually and

as a team are worth the effort.

Being a pageant contestant is a learning experience. Norma Naour, Pageant Director, stresses team spirit with all the girls. No matter how many contestants there are...there will only be one who can win. But, the experience gained, the friendships made, and the knowledge that so many

people in the community are working with them, supporting them, and loving them all no matter who wins, help each girl to realize that there are no losers in this pageant.

Much has been written about the pro's and cons of pageants. Some feel the pressure on beauty and talent is too much, and there are those who have inner

Problems Surface At County Landfill

Financial and pollution problems have surfaced at the Crawford/Otsego Landfill located in northern Maple Forest Township off Sherman Road.

The most pressing problem brought out at a special meeting Monday, Jan. 31, between Crawford and Otsego county commissioners and landfill board members was a total of \$17,500 in unpaid repair bills.

Half of the money was due when the equipment was repaired a few weeks ago and the remainder was due within 30 days. The landfill fund is nearly

broke thus landfill board members went to the county commissioners for the money.

The commissioners decided Monday to pay the repair bills immediately as soon as finance committees can approve them, but they decided to wait on a request for additional funds to operate the landfill in the black until May clean-up which generates enough revenues to cover costs.

The landfill, started in 1974, has operated on its own dumping fees in the past until last year when a purchase of machinery for \$125,000

From Our Corner ...

Here we took a sabbatical leave last week from our chores of getting out this turkey and thinking that with the week off things would look much brighter, and more thoughts would come rumbling through our mind so that it would be nothing to get this week's efforts out of the way...no sir re-bob... we've been looking at ol Smithy here for some 45 minutes waiting for it to start doing things like those new fangled computers, but no dice...someone told me that you only get back what you feed into them...in that case, we don't expect to get much out of Smithy here...

The big day in the life of one of eight local gals is drawing near when on Saturday, February 12th, the 8 will compete for the coveted title of Miss Grayling 1983 at the Miss Grayling Pageant...and will reign over all the activities that Grayling participates in for the year...she will be Grayling's ambassador of good will wherever she travels...one of her first functions will be that of reigning over Grayling's Annual Winter Sports Carnival set for Saturday and Sunday, February 19th and 20th...

Where oh where did the first month of 1983 go to...seems like yesterday it was New Year's Eve, and now we look at the calendar, and there it was... Ground Hog Day, Wednesday, February 2nd...now if he doesn't get scared and go and hide we may come out of the winter of 1983 just the opposite all the experts were saying...this was suppose to have been the worst winter in decades...it hasn't been in Northern Michigan anyway...with the short month of February, before we know it, it will be March Madness...time for all the basketball hopefuls...now if our economy could come around as fast as this year has been going, maybe there would be some hope for some of us...

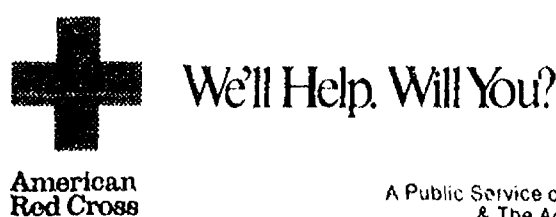

Talking with individuals up and down main-street, the same thought is in their minds, it just doesn't seem like things could get much worse...but then, if they do there will be more businesses closing...

Now that the Super Bowl is history and the Washington Redskins are the champions of the professional football world, why is that everyone it seems you talk to are Redskin fans and won a bundle on the outcome...before the game it seemed to us that the Dolphins from Miami were sort of the favorites to be the champs...but not to listen to the Monday morning quarterbacks...

We hate to admit it here, but, I think we are the only guy in northern Michigan, and possibly any where, that had to miss the preliminary and the first hour of the game Sunday...the reason, you ask? We just so happen to be married to a golf nut, and she happened to have the Phoenix Open on the TV before we thought of turning on the set for football... The golf match went into sudden death with four players, and as far as we know, they may still be playing...the station the golf was on switched to 60 minutes, lucky for me, I was able to see about 2/3 of the Super Bowl, enough of the exciting action anyway...

The last part of this turkey is being accomplished on a new typewriter, that we are trying to get use to, and to tell you the truth, it doesn't have any more smarts than ol Smithy has...this one is called Silver-Reed, Sovereign 850 made by Seiko, if that makes any difference...we do know one thing, the keyboard is set up different and we're having a time finding the right places to manipulate it...

This has got to be it for this week's turkey, we've had a trying time coming up with enough to fill our space this week...haven't seen our T.C. family since Christmas, so if the weather cooperates we may go over this weekend...we'll end this with goodnight T.J., Stefany and Amber and to all our readers, have a very nice weekend...

The Bible Speaks

From Calvary Baptist Church

ARE PEOPLE FROM GRAYLING GOING TO HELL?

As we passed the 10th anniversary of our column "The Bible Speaks", the fear of failure sent chills down my back. Had our primary goal been attracting more and more readers we could claim success. But our goal for the people of Grayling is changed hearts and lives which will yield eternal benefits. We fear a ministry like that of Ezekiel who warned Israel for many years, but the people didn't change. God reminded Ezekiel of the real problem: "...they hear thy words, BUT THEY WILL NOT DO THEM: for with their mouth they show much love, but their heart goeth after their covetousness." Ezekiel 33:31.

The indifference and apathy of most people over religion implies they are uncertain about God's judgment and the reality of eternal torment in Hell. They are easily blinded by the devil, preachers and politicians which will be the first ones to burn in Hell. "And the devil that deceived them was cast into the lake of fire and brimstone, where the beast and the false prophet are, and shall be tormented day and night for ever and ever." Revelation 20:10. If you have not personally received Jesus Christ into your heart by faith in His death, burial and resurrection for your sins, then your name is not in the book of life and you will burn forever in Hell. "And whosoever was not found written in the book of life was cast into the lake of fire." Revelation 20:15.

Many people are indifferent because of the confusion about how to be saved, baptized, avoid Hell, and gain Heaven. The ecumenical religious leaders of this town cannot agree on these important matters, and therefore by their unity teach you there are many ways to be saved, many ways to avoid Hell and many ways to gain Heaven. If this

be true, then God is a liar, the Holy Bible teaches error, and pastor Barnett is a false prophet.

My friend, truth or error, life or death, Heaven or Hell are eternal contrasts of reality which will shape the destiny of every human being on earth. If you are easily offended by someone who takes an interest in your soul, then you are showing your insecurity, uncertainty and anxiety at the thought of death and eternity. One who knows our Lord Jesus Christ by faith is happy to be asked about his soul because he knows he is going to Heaven.

One of the best friends you have in town is your local doctor who cares about your physical body. And we have many wonderful doctors. Many problems require the doctor to hurt you before he can help you. Surgery is no fun. In the same manner, all of us have a spiritual problem called sin, & the person who shows compassion on your soul must watch your conscience pricked by the guilt of sin, before you turn in faith and repentance toward Jesus Christ. The greatest friend you will ever have on this earth is that person who loves you enough to show compassion on your lost soul, and points you to Jesus Christ and Heaven. (adv.) Pastor Barnett

Seventeen residents and three helpers of Timberview Village, Manor and Commons were to the Center in Grayling, for the dinner put on by the Eastern Star Ladies. We appreciate you ladies for the lovely dinner, this was for the 80 and handicap. Afterwards we sang some old favorite songs with Lora, Connie and Barb. It was good to see June Feldhauser back at the organ, who also with Mike Servin did a special with his Musical saw. Then the game of cards was played. It was so good to see some old friends again, Louise Hartig, Amy Gothro, Edie Adam, Max. Everyone enjoyed themselves. Yours truly did.

The community wishes to extend their sympathy to the family of Russell Dunlap, he was a member of the First Baptist Church.

Karyn Reynolds Gold Medal Winner

Sixteen year old Karyn Reynolds of 404 Park Street, Grayling, was the gold medal winner in the Women's Giant Slalom Event held on Saturday, January 22 at the United States Ski Association - Central Division sanctioned races held at Boyne Mountain.

Karyn is in the 11th grade at Grayling High School where she races on her high school team. Her home ski area is Rasmus Hanson Hills and she has been racing for nine years. Karyn is coached by Steve Myett and Mike Wieland. She has attended the Pine Mountain Thanksgiving Camp and the Mt. Hood summer racing camp.

Ninety-one junior alpine ski racers from Michigan took part in the four weekend races sponsored by Region III of the Central Division of the United States Ski Association (CUSSA).

Often thought of as a farm system for the United States Ski Team, USSA's competition programs provide the opportunity for competitors to develop to their full athletic potential. This goal is achieved by maintaining national competitor ranking systems, promoting quality coaching through the clinics and journals of the United States Ski Olympic training center, through sports medicine research, and conducting thousands of ski competitions nationwide during the ski season.

Earns Ferris Degree

Steven Persing, of Grayling, has earned a Bachelor of Science Degree in Business Administration at Ferris State College. Persing graduated with high distinction after the fall semester.

Vikes Regroup After 2 Losses

Grayling was left out in the cold last week running into two hot teams losing 85-55 to Roscommon and 85-65 to Boyne City.

Roscommon shot over 50 percent from the floor as they warmed up early and left Grayling behind. The Bucks connected on 39/76 from the floor. Grayling shot well, 26/63 for 41 percent but it wasn't enough.

"Roscommon played a good game," Grayling head coach Butch Hayes said. "They couldn't play any better and we couldn't have played any worse. Our man-to-man defense was terrible and we weren't ready mentally for the game."

Ryan Morford led Grayling with 16 points and Wayne Ross had 12 to also hit for double figures. Paul Hamlin added 8, Jim Stewart 6, Mike Hickey 4, Ken Lademan 3, Dave Zigala 2, Bob Keene 2, and Jon Nicholas 2. Ross had 10 rebounds, Hamlin 9, and Morford 8.

Against Boyne, the Vikings again ran into a hot shooting team. Boyne hit 46 percent from the floor and earned 25 of 36 free throws.

Grayling shot 31 percent from the floor and 17/27 from the line. The Vikings out rebounded Boyne 71-56 but almost one-third of their rebounds came after Grayling had missed a two-foot shot.

Hayes said Boyne played good defense and were hot shooting. Fouls got Grayling into trouble and late in the game Ross and Hamlin were

sitting on the bench with five fouls joining Mike Hickey, who was ejected from the game, and Ryan Morford, who was too sick to play.

Grayling will try to regroup this week to face Cheboygan Friday and Rogers City Tuesday in a make-up game postponed from Jan. 14. The Rogers City game will be played at the high school gym.

beauty, poise, and the ability to communicate that are overlooked. The Miss Grayling pageant is not a beauty contest. Our judges are instructed that the most points are given to the girl who has pride of community, poise and confidence, and is able to express her feelings concerning Grayling, and her desire to represent her community for the coming year.

On Saturday, Feb. 12th the girls will begin their day with a reception for the judges at pageant headquarters - The Chief Shoppe-nagons Motor Hotel. After that there will be individual interviews lasting approximately twenty minutes. From then until the pageant begins the girls will be with their pageant moms.

CONTESTANTS PRACTICE at Louise's Dance Studio. Pictured...Heidi Goss, Sheila Burpee, Sheri Linendoll, Mindy Baker. (Photo by Adams Photography).

This year Phyllis and Steve Sauter have opened their home to the girls for the afternoon. They will be able to take a nap...relax with music...and have a buffet provided by the pageant moms. Then they will be escorted to the auditorium. Each pageant mom will be working with her contestant to see that she presents herself in the best possible way,

that she is relaxed and yet proud of what she has accomplished in the weeks leading up to the pageant. For those who have never been to a pageant, let me urge you to come and see how much the girls have accomplished, how professionally the show is put on, and how exciting it is to see the crowning of the New Miss Grayling.

Midwest Governors May Unify On Unemployment Insurance

Warren M. Hoyt, Executive Director, MPA

Governor James Blanchard has announced there is a good chance that midwest and northeast governors would coalesce in an effort to get the federal government to limit unemployment tax penalties, defer interest on unemployment repayments and extend unemployment benefits.

All the states involved are continuing to stagger under the long deepening recession which has forced heavy state borrowing from the federal government to pay benefits to unemployed workers.

Michigan alone has a debt to the federal government of over \$2 billion.

Blanchard said that because other industrial states were in severe economic straits, he thought unity in approaching the federal government was possible.

Michigan's new governor recently met with governors from Illinois, Indiana, Wisconsin and Pennsylvania and U.S. Senator Robert Dole (R-Kansas), chairman of the Senate Finance Committee.

Blanchard said the five governors agreed to ask the federal government to either defer or suspend interest payments on state unemployment debts. The group also will ask the federal government to limit the penalty tax all employers will be charged if the unemployment debts are not repaid and to extend the federal unemployment benefits.

Following the meeting, Blanchard said major reforms from the federal government will be needed if the state is to improve its business climate.

"The interest charged by the federal government amounts to a tax on states which are hardest hit by unemployment and are forced to borrow from Washington. It is essentially a tax on business in

states with high unemployment. It is the opposite of federal counter-cyclical policies which historically have been designed to help states when they are financially hard pressed," Blanchard said.

Blanchard said Dole acknowledged that many states are unable to repay the interest on the debts because of the length of the recession.

The governor said that unity among the states in approaching the federal government could cause it to deal with those states' problems more seriously than in the past.

For several years, legislators and officials of the midwest and northeast states have tried to form compacts that could deal more forcefully with the federal government, but the efforts have always failed.

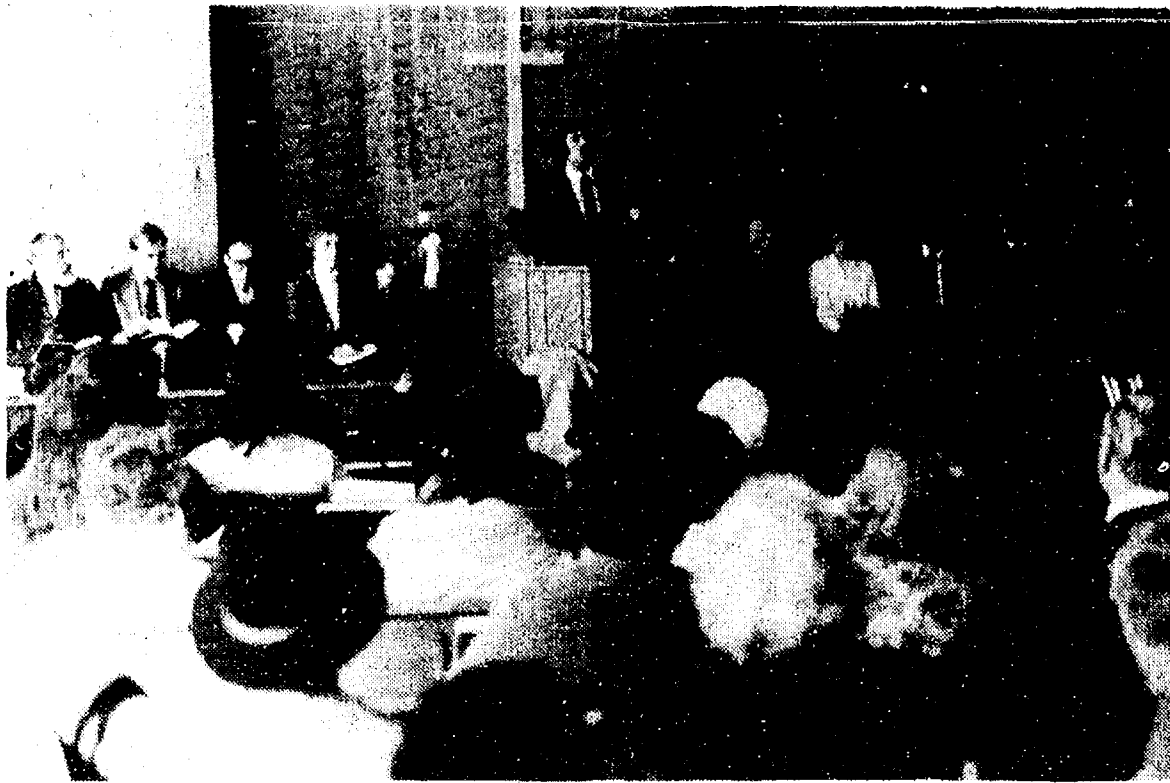

Students Test Scores Improve in Michigan

Reading and mathematics test scores for students in the fourth, seventh and 10th grades all improved this school year over the previous year, State Public Instruction Superintendent Philip Runkel reported.

Runkel said the improvements, especially in reading, were very significant but a solution to the lower math scores for seventh and 10th graders were needed.

The levels in all categories showed that most students received acceptable scores statewide.

Fourth grade students showed 75.6 percent acceptable scores in reading and 77.8 percent in math. Seventh grade students showed 80.1 percent acceptable scores in reading, but only 62.5 percent acceptable scores in math. High school sophomores had 77.9 percent acceptable scores in reading, but only 61 percent in math.

CHRISTIAN UNITY—Annual Christian Unity services were held Friday, Jan. 21, at the Community Church of God at 501 Michigan Ave. In front leading the service is Pastor Craig Hexham, from the Community Church of God. To the left of Hexham are Pastor Robert Haskel, from St. John Evangelical Lutheran Church, Minister Jeffery Regan, from the Michelson Memorial United Methodist Church, Reverend Donald Roberts, from the Assembly of God Church, and Sister Cecilia, from St. Mary's Church. On the right of Hexham are Sister Generose and Sister Marjorie, from Mercy Hospital, Pastor Larry Evoy, from the Free Methodist Church, Robert Harrington, from St. Francis Episcopal Church, and Father Bill Rabor, from St. Mary's Church.

Grayling Skiers 28-11-1

The Grayling Ski Team is continuing its winning ways despite being one of the youngest teams in the league.

With one half of the season gone the Vikings' boys team with one senior and a bunch of sophomores have a 15 win, 4 loss and one tie record.

The girls, without All Stater Karyn Reynolds have a 13 and 7 record, and only one girl has more than one year of racing behind her.

One big reason has been the help of Lary Gust, who has been using the video equipment donated by Weyerhaeuser to record practice sessions and meets. This has allowed the skiers to see what Coach Mike Wieland wants changed in their skiing techniques. "With all the sophomores being able to see their mistakes they have been quick to improve. They are a good group of coachable racers."

The ski teams finished second behind an always tough Harbor Springs team at Nubs Nob last week with girls scores being Harbor Springs 37, Grayling 65, Boyne City 96, Kalkaska 125, and Sault Ste. Marie 138.

Boys scores were Harbor Springs 31, Grayling 62, Kalkaska 103, Boyne City 120, and Sault Ste. Marie 146.

Grayling girls placed in slalom and giant slalom respectively: Kris Lauden-slager 6th & 5th; Heidi Bendig 10th and 7th; Carol Longworth 12th & 9th; Kris Casler 11th & 12th; Heidi Derenzy 5th & 29th and Madelyn Thomas 21st and 20th.

The Grayling boys placed in slalom and giant slalom respectively: Alan Weiss 4th & 3rd; Pete Huss 8th & 6th; Mark Gust 12th & 13th; and Dave Martella 2nd and 31st. Glen Carlson placed 23rd in slalom and Greg Welser 14th in giant slalom.

The Vikes next meet is against Roscommon at home but will be rescheduled for a later date.

Great Lakes Federal Savings Reports Profits

At the Association's annual meeting on January 26th in Ann Arbor, Roy E. Weber president and chief executive officer announced a 1982 profit for Great Lakes Federal Savings of \$4.6 million.

Weber attributed the profit to an investment policy decision to package and sell lower rate mortgage loans and to an incentive program to mortgagors which resulted in the prepayment of \$6.6 million in low yield loans. Also a factor in Great Lakes' profitability, Weber said, was a significant decline in savings interest rates during the past 6 months thereby reducing savings costs to the Association.

Great Lakes Federal as a result of two mergers in 1982 increased its assets by \$645 million. The first merger completed in March with First State Savings of East Lansing resulted in an increase of \$65 million and enabled Great Lakes to better penetrate the Lansing market. In October, United Federal Savings of Saginaw and Great Lakes Federal were granted approval for the largest voluntary merger of savings associations in Michigan. The merger with United Federal added \$580 million to the Association's assets for a combined total of \$1.5 billion at year end.

As a further benefit of the mergers Weber pointed out that Great Lakes Federal now has 60 office locations in Michigan ranging from the southern border to the Straits, including an United Federal office in Grayling. Great Lakes Federal serves over 300,000 accountholders and is the 3rd largest savings and loan in Michigan. According to Weber, Great Lakes occupies the most desirable market area of any savings institution in Michigan.

Weber noted that the longest recession since World War II now seems to be ending. Citing factors such as a reduction in the inflation rate and a decline in interest rates, Weber feels there is a good reason to be hopeful that 1983 will be a year of economic recovery. A pent up demand for housing combined with lower mortgage interest rates and stable prices has made housing one of the stronger sectors of the economy in recent weeks and portends a strong housing market for 1983. Overall, Weber views 1983 as a year of some economic recovery in which Great Lakes Federal Savings will share.

RSVP Operation Identification

by Sherry Haag

The Retired Senior Volunteer Program in cooperation with the Crawford County Sheriff Dept. will be sponsoring Operation Identification. Volunteers are available at no charge to mark your valuables. An electric marking needle is used to identify any object you would like marked. Social Security numbers will be permanently etched on T.V.s, stereos, cameras, tape machines, etc.

After your home has been identified you will be given a sticker to place on your door notifying any prospective burglar that your home contents are identified and can be traced by the police. It has been proven that homes marked under Operation Identification have less chance of being burglarized than homes not marked. In addition, if you have valuables stolen, your chances of having them returned are higher when they have your identifying number of on them.

For more information, or to make an appointment, please call RSVP office at 348-4341 or 348-8322. Volunteers are ready to come to your home at your convenience. Let's all work to make Crawford County a safer place to live.

COGENERATION: Making Energy Work Harder

A system that makes the Midland Nuclear Cogeneration Plant more efficient will make world history as the first such commercial system powered by nuclear fuel.

The system uses a process called cogeneration. Basically, that means that the exhaust heat left over from generating electricity is captured and reused. Most generating plants do not have a cogenerating system, so that excess heat is wasted.

Making Midland a cogeneration plant means more efficient use of energy resources, says the plant's owner, Consumers Power Company.

At Midland, the exhaust heat will be used to produce what is called process steam. That steam will be sold to Dow Chemical Company, for use in Dow's neighboring industrial complex.

A large portion of the Midland nuclear plant's total cost is attributable to equipment needed to produce the steam. This amount—approximately 25 percent of the plant's total cost—will be paid by Dow when it buys steam, rather than by Consumers Power's electricity customers.

Producing steam is like heating water in a tea kettle, where heat from the stove is transferred through the kettle to the water inside. At the nuclear plant, three separate water systems will do basically the same thing.

The nuclear reaction process, called fission, produces heat inside the nuclear fuel; that heat is absorbed by the surrounding water in the "primary" system. This very hot water, under high pressure to prevent it from becoming steam, is then piped to a steam generator.

There, water in a second system surrounds the steam generator pipes. The pipe walls transfer heat from the hot water inside to the cooler water outside, much like the tea kettle on a stove. The second system's water becomes so hot that steam is formed.

This steam is piped to a turbine. There, it exerts force against turbine blades, giving up most of its energy and causing the spinning action necessary to drive an electrical generator.

Then, some of this used steam is piped to another set of "tea kettles" called evaporators. Those evaporators contain water from a third system. As the steam passes through pipes in the evaporators, its remaining useful heat is again transferred outside, turning the surrounding water to low pressure steam. This new steam is then piped to Dow's plant, where it is used in Dow's manufacturing process.

This advertisement is paid for by the shareholders of Consumers Power Company.

RSVP Living History Program

by Sherry Haag

RSVP, along with the
Crawford AuSable School
District, is sponsoring a
Living History Program.
The purpose of the program
is for seniors to share their
experiences, knowledge and
wealth of information with
youngsters trying to learn
about such events.

Who better to explain
about the Depression than
someone who has lived
through it? Who better to ex-
plain the early Labor Move-
ment than someone who
worked before and after?
Who better to tell of the early
lumber era than someone
who lived during that time?
Who better to tell what it was
like keeping a house and
taking care of children with-
out electricity and modern
conveniences than someone
who did just that?

Do you have experiences
you'd like to share with
young people in the area?
We will be preparing a list of
people and their interests.
These lists will be used by
the high school and middle
school principals who will
share them with their
teachers. Scheduling will be
done through the RSVP of-
fice with any training
provided by same office.

Here's your chance to
make History come alive for
many youngsters. Please
say yes when we call for
your help.

If you would like more in-
formation or would like to of-
fer your time, please call
348-4341.

Why does a bank teller generally remind you to endorse the back of your deposited check? The drawer's bank would be liable for the loss if it paid a check lacking an essential endorsement.

Keep a clean house, inside and out, in St. Louis, Missouri. The law there forbids you to collect rubbish on your roof.

Generally, a partner must get the consent of all the other partners in order to sell his share of a partnership.

The 21st amendment to the U.S. Constitution is the only amendment ever to repeal another one - the 18th, which prohibited the manufacture, sale, or transportation of intoxicating liquors.

**Wrestlers Win Double Dual
For Parent's Night Crowd**

Grayling matmen gave their parents something to cheer about last Wednesday rolling over Boyne City 71-6 and beating Kalkaska 41-24 in a double dual at home before a Parent's Night audience.

Eight Viking wrestlers earned double victories and four scored single victories as Grayling raised their head-to-head record to 8-1 for the season.

Tim Moore, Dan Meldrum, Ron Wyman, Steve Sauve, Jim Piper, John Solomonson, Barsie Cross, and Tom Sorenson went 2-0 for the night. Lacey Stephan, Claude Halstead, Chris Krajenka, and Gary Gugin each won once.

The flu bug hurt Grayling Saturday as they were edged out of first place by Gaylord, a team they have finished in front of in every tournament they've met this year.

With four wrestlers competing affected by the flu and one wrestler too sick to even enter the ten-team invitational at Breckenridge, Grayling wound up in 3rd place with 126 points behind Gaylord with 129 and Dewitt with 128.

Steve Sauve kept his winning streak alive, however, with a first place. He improved his record to 32-0 for the season. Dan Meldrum, at 25-5, and Jim Piper, 28-4, also took first place medals for Grayling.

Doodles From The Tall Timber

Wendell L. Hoover
Park Interpreter

For several weeks I have been seeing Mourning Doves which for this time of the year is most unusual, but this has been an unusual fall and winter. By this time the doves have normally moved to warmer climates in the southern states. I am sure most, if not all, of you are familiar with this bird, but did you know that it looks much like the extinct passenger pigeon which lacked the white-bordered tail, a black spot behind the eye and had a blue-gray head.

The Mourning Dove usually lays two eggs at a time and quite often raises two broods a season. The nest is a rather sorry-looking collection of sticks and twigs in low bushes and tall trees. They have a wide range throughout most of the United States into Mexico and the Bahamas. They usually winter from Iowa to Massachusetts which makes their presence here all the more unusual. Since they feed in small groups, you might keep them around by feeding scratch feed since in the summer they choose various weed seeds and grains. They have been known to feed upon the seeds of yellowwood sorrel, barnyard grass, joint grass, orange hawkweed, hoary vervain and panic grass.

Announce Engagement

Mr. and Mrs. Raymond Smith of Grayling are pleased to announce the engagement of their daughter, Karen Ann, to Mr. Ralph Kelly. Ralph is the son of Mr. and Mrs. Peter Kelly of Grayling. A June wedding is planned.

Chamber Chatter

By Joyce Kolka

On Thursday, January 13th, the Grayling Regional Chamber of Commerce Board of Directors appointed me as their Secretary/Manager.

One of the important responsibilities in this position is to inform our members, non members and the community at large about current Chamber events. We hope that this column will assist in that task.

Of major importance coming up in early February will be the naming of a new "Miss Grayling". She will reign over the Winter Carnival and represent Grayling in the many area parades and community events this summer.

To promote the area to tourists, the Chamber will have an exhibit at the Detroit Outdoorama Show from Feb. 18-27. The ten day program will consist of outdoor exhibits from fishing tackle and boat companies to hunting and recreational concerns. It attracts hundreds of thousands of visitors from all over Michigan. Chamber members may bring their brochures for distribution at the show, to the Chamber office no later than Monday, February 14th.

A new exhibit constructed for the Chamber through a grant from the Private Industry Council will be used for the first time at the Outdoorama Show. Before the Outdoorama, the exhibit may be seen on display at the various financial institutions around the Grayling area.

The pine decorations on the South I-75 Business Loop light poles have been hung as a direct result of work done by the Grayling Beautification Committee. The Grayling Township Fire Dept. provided the manpower and equipment for hanging the decorations. This summer these displays will be replaced by potted flowers. Nice work folks!

The Milltown Festival Committee has been meeting since August and promises a bigger and better program than ever this year. Three parades will highlight the 10 day event. The program will begin with the AuSable River Canoe Marathon on July 29th and it will end on Sunday, August 7th at the end of the softball tournaments.

A snowmobile safari for the Special Olympics will leave Mt. Clemens on Feb. 7th and will be arriving in Grayling at the Holiday Inn on Feb. 8th.

The sponsor of the endurance run is the Vic Wertz Distributing Company of Mt. Clemens. In the course of its zig-zag run through the state competitors will travel 625 miles.

The participants will be spending the night at the inn and taking off for Sugar Loaf Mountain, early the next morning for the next overnight stop.

We urge all residents to stop and visit these folks who are participating in the Special Olympics Fund Raiser, a very worthy cause.

Sharing the Abundant Life

There was plenty of gasoline during the blizzard. Yet we couldn't go anywhere. So we made the best of it, and tried to help one another.

Our society is changing today. We are learning to cope. To appreciate what we have in abundance. Make do with what's in short supply. Share!

The message of our churches has not changed. They have always reminded us that life should not be measured in terms of material possessions. Christ in his own way offered men an abundant life.

For the Christian believer and worshiper that abundant life is founded on spiritual conviction and commitment. It includes things that blizzards and gas crunches cannot take away.

Come worship this week and share in the abundant life.

Lovells News

by Ruth Caid

Jim Douglas returned home after being a patient at Mercy Hospital. His many friends wish him a speedy recovery.

Mr. and Mrs. Eddie Harwood and daughter, Erin, of Midland spent the weekend with his mother, Mrs. Margie Harwood.

The Cheerful Givers Club will meet at the home of Mrs. Vi Wingeier on Thursday evening at 7:30. Bring a prize for the game.

Mr. and Mrs. Lloyd Stahl were called to Monroe due to the death of her sister, Mrs. Frances Duty. She was also the daughter of Mrs. Dealia Grassley. We extend our deepest sympathy to the family.

Mr. and Mrs. Jack Kearney hosted the party Saturday evening. Prizes were won by Ruth Caid, Elinor Wikoff, Virginia Parker, Bill Koernke, Marvin Wikoff, and Bill Braun. Mr. and Mrs. Andy Parker will have the party this week.

Sculptures

(Continued from Page 1)

of Liberty built by Deckrow one winter are said to have lasted into July when the sun finally melted all of it.

If the smaller sculptures are to be built this year, the snow will have to fall a week before the carnival to allow work crews enough time to build and form the figures. Winter Carnival officials plan to build a Miss Grayling Queen's throne this year in returning to the former tradition of constructing an ice sculpture for the queens.

Any groups interested in building a sculpture at the park for the carnival can contact Bill Bonkowski, chairman of the 1983 Grayling Winter Sports Carnival.

District Free
Throw Winners

On Saturday, Jan. 29th, the Knights of Columbus district free throw contest was held at the middle school gym. It featured the winners from Gaylord, Kalkaska, and Grayling. Winning for Grayling in the 11 year old girls group was Lisa Moggo; 11 year old boys, James Pfaff; and 12 year old boys, Jeff McClelland.

These three will be competing on Feb. 19th in Onaway against all the district winners from northern Michigan. The Knights of Columbus wishes them good luck.

Lovells Extension

The Lovells Extension group will hold their February 9th meeting at the township hall at 12:00 noon. Please call hostess Helen Spencer if you are bringing a guest or cannot attend.

Landfill

(Continued from Page 1)

was needed and the two counties stepped in to share costs.

The request Monday for funds to pay the repair bills was the first time the landfill has needed county money for operational expenses since its beginning.

Landfill officials say they're caught in a bad position. If they raise rates to cover expenses they'll lose volume to other county landfills. Some nearby counties subsidize their landfills and can therefore charge lesser rates, they said. A possible solution they feel would be to join with other northern counties and cooperatively run four or five landfills.

Another problem commissioners learned about was a contamination reading in one of 12 monitor wells around the landfill.

The last three samples in a monitor well near the entrance gate of the dump have indicated seepage in the groundwater there from the landfill. The last reading showed a decline in the pollution reaching the well and landfill officials are hoping the problem was only a small temporary one caused by a pond last winter.

Last winter when heavy machinery broke down at the landfill, the small equipment doing the work fell behind and a small pond formed between two piles. Landfill officials think the pond, which lasted from winter until the following June, may have pushed water down through a gravel seam beneath the landfill to the monitor well.

The pond water was colored orange with high iron content and iron is one of heavy metals showing up at the test well.

If the pond caused the pollution reading at the monitor well, the readings should continue to decline. However, if they persist, a clay barrier may have to be installed adding to the landfill's financial difficulties.
